Phone #	In Office
I give permission for the Principal to contact the physician or licensed health care provider relating to my child's medical condition, if necessary, for the purpose of the development of the individual action plan [S40(a) or S40(a1)].	Other (i.e., with person in a position of authority): ———————————————————————————————————
Yes □ No □	The inhaler or other prescribed medication will be returned to the student at the end of each school year.
THIS STUDENT HAS ASTHMA & MAY REACT TO THE FOLLOWING TRIGGERS (PLEASE INDICATE): DUST MITES ANIMALS MOULDS POLLENS VIRAL INFECTIONS AIR POLLUTANTS SMOKE EXERCISE COLD AIR CHEMICAL FUMES/STRONG SMELLING SUBSTANCES SPECIFIC FOOD ADDITIVES (PLEASE LIST) INTENSE EMOTIONS OTHER:	We recommend that you provide your child with an inhaler, to be carried on their person at all times, to use in the event of an emergency. Having the inhaler on their person, and immediately available to your child, will enable us to treat him or her as rapidly as possible. I have provided an inhaler for my child to carry on their person at all times I have provided a MedicAlert® Bracelet or other appropriate medical identification to my son/daughter to wear at all times. I have not provided an inhaler for my child to carry at all times on their person and take full responsibility for this decision. I have provided an inhaler to the office.

ACTION – INDIVIDUAL EMERGENCY PLAN: Remove student from the trigger if possible in order to reduce the severity of the symptom(s) > Use inhaler immediately or administer prescribed medication as indicated on this form and try to keep student calm > Have student remain in an upright position (DO NOT have student lie down) > Encourage student to breathe slowly and deeply (DO NOT have student breathe into a bag) > If student totally recovers, participation in activities may resume **IF SYMPTOMS PERSIST:** > Wait 5-10 minutes to see if breathing difficulty is relieved and student's breathing returns to normal > If not, repeat the administration of the reliever medication (inhaler) > If the student's breathing difficulty is relieved and student's breathing returns to normal, the student can resume school activities, but should be monitored closely. The student should avoid vigorous activity and may require the administration of additional reliever medication IT IS AN EMERGENCY SITUATION IF THE STUDENT: > Has used the reliever medication and it has not helped within 5-10 minutes ➤ Has difficulty speaking or is struggling for breath > Appears pale, grey or is sweating > Has greyish/blue lips or nail beds **OR** > There is doubt or concern about the student's condition **ACTION:** > CALL 911 and advise the dispatcher that a student is having an asthma exacerbation (describe the observable symptoms), wait for ambulance, DO NOT drive student > Continue to administer the reliever medication every two to three (2-3) minutes until medical assistance arrives > Call Parent or Guardian and/or Caregivers as soon as possible > The student must be taken to a hospital immediately, even if symptoms subside entirely. LIST ADDITIONAL/OTHER SYMPTOMS FOR YOUR POSSIBLE ASTHMA SYMPTOMS: CHILD: Shortness of breath Tightness in chest Coughing Wheezing PARENT INPUT ON EMERGENCY PLAN:
